

Centrifugal Free Flow and Dewatering Pumps

FEATURES

- Most modern & Latest design
- Superior design materials
- Components are made of selective materials
- Easy Installations
- Silent, vibration - free running
- Impeller : CI

CONSTRUCTION

- Carbon bush bearing combination improves the life and efficiency of the motor
- Motor body is made of heavy duty stainless steel tube.

Dewatering pump supplied with 10 mtrs, 1.5 Sq.mm. flat cable, 15 Amps power plug and water switch.
Do not pour water inside the pump.

S. No.	HP	kW	TYPE	Pipe Size (mm)	Discharge in LPM	Head in Metres				
						4	6	8	10	12
1.	1.0	0.75	OWFF	50	326	294	254	199		
2.	1.5	1.1	OWFF	50	430	390	328	248	114	

The above performances are based on a means supply voltage of 220 V - 1 ph 50 Cycles.
